Secure Wireless Adhoc, Sensor and RFID Networks

Investigators: Jag Sarangapani (sarangap@mst.edu, 573-341-6775), Sanjay Madria, Maciej Zawodniok

Funding Sources: Air Force Research Laboratory, Department of Education, Army Research Laboratory, Boeing

Project Description:
This project intends to develop novel networking protocols such as localization and data aggregation schemes, energy efficient distributed schemes, self organizing networking architectures for wireless ad hoc, sensor and RFID networks.
